

Statement regarding Elk Grove Real Estate Scam

The California Association of Mortgage Brokers (CAMB) has consistently denounced fraudulent practices in the real estate industry and believes individuals who commit such fraud should be identified and prosecuted to the fullest extent of the law.

By contrast, CAMB members adhere to a strict code of ethics that specifically prohibits any behaviors that condone unscrupulous loan practices and is a champion for consumer protection and education within the industry.

Consumers with questions about the loan process or lending practices can visit www.CAMBweb.org for a free no obligation referral to a CAMB member.
